Variance Procedures

Variance applications are heard and decided at a regularly-scheduled public hearing by the five-member City of Atlanta Board of Zoning Adjustment ("BZA"). The Bureau of Planning serves as staff to the BZA. Approximately one week after each closing date, a planner is assigned to review your application. All inquires regarding your application should be directed to this office at (404) 330-6145. The rules of the BZA prevent BZA members from discussing the merits of any case except during the public hearing for that case.

Schedule. There are two closing dates and two public hearings per month. The schedule allows time for neighborhood and NPU meetings to occur throughout the City prior to each public hearing. The schedule of closing and public hearing dates is attached (Page 9).

Neighborhood and NPU Recommendations. The City is divided into 24 Neighborhood Planning Units (NPU), each of which has a volunteer citizen advisory committee that makes a recommendation to the BZA on variances. When you file your application, you will be notified of the NPU contact person and that you must schedule a meeting with that NPU in order to explain what you wish to do. You may be requested to attend additional neighborhood meetings; inquire about the time and place of those meetings. The applicant is expected to contact the NPU as soon as possible after the application is filed. The Bureau of Planning will send a copy of your application to the appropriate NPU during the week after the closing date for your application.

Public Notice. When you file your application, it will be scheduled for a public hearing. The Bureau of Planning will initiate posting of public notice ("an advertisement", "a legal ad") for this public hearing so that the public is informed at least 15 days before the date of the public hearing:

- by sending written notice of your application to all property owners whose property is within 300 feet of the subject property, and
- by causing public notice to be placed in the newspaper.

You are responsible for obtaining a public notice sign when you file your application with the Bureau of Planning, and for posting it in a visible location on your property, at least 15 days prior to your public hearing. Failure to properly post the sign will make it necessary for the BZA to defer your case to another public hearing. The BZA may defer the case to a hearing that has been scheduled 30 or more days after the original hearing.

Refunds on Withdrawn Cases. Requests for withdrawal received 18 days prior to the public hearing will enable a refund of the application fee.

Staff Recommendation. Bureau of Planning staff reviews and makes written recommendations to the BZA on each variance application. You may contact your assigned planner at (404) 330-6145 on the day of the public hearing if you wish to know staff's recommendation.

JUSTIFICATION FOR VARIANCE

V-10-22

**1081 LANIER BOULEVARD
ATLANTA, GA 30306**

We are seeking a variance to allow the construction of a screened porch to be located adjacent to the existing rear stoop of our home. We are requesting a variance to reduce the sideyard setback from 7'-0" to 3'-0". Our home has no real covered porch area currently and we would like to be able to enjoy this amenity on our property for outdoor living and entertaining space.

After evaluating our lot, we determined that ours is a non-conforming lot according to current zoning guidelines. Presently R-4 zoning requires 9,000 s.f. minimum lot size. Our lot is only 8402 s.f. making it a challenge to design our desired screened porch. Also, our existing home, built in 1926, was not constructed according to the current required setbacks for R-4 zoning. Neither the front of the house or the southwest side meets the current setbacks. Due to the existing location of the house, a variance is needed for our proposed screened porch.

We would like to align our proposed screened porch with the existing rear stoop of our home, which would keep the porch parallel with the side of our home. As indicated on the attached survey, the rear corner of our home is 3.7' from the property line. By using our existing stoop as the starting point of the screened porch, the rear corner will terminate 3'-0" from our property line. Therefore, a 4'-0" reduction of the required 7'-0" sideyard setback will allow us to construct our screened porch.

The design of our proposed screened porch will accomplish another goal to enhance our lifestyle. By abutting the porch to our existing rear stoop, we will also be able to cover the stoop with the new roof, as well as a good portion of our stairs that lead up to our back door. The new roof will provide much needed protection from the weather for bringing in groceries, packages and such. We will be able to use the stoop as an open-air mudroom for wet umbrellas, boots, etc. Overall, we believe the new design will accomplish all of our goals. The relief from the current sideyard setback requirements will allow all of this to happen.

The proposed solution is the best way to balance our family needs and lifestyle with the character of neighborhood.

We thank you for your attention in this matter.
