Variance Procedures

Variance applications are heard and decided at a regularly-scheduled public hearing by the five-member City of Atlanta Board of Zoning Adjustment ("BZA"). The Bureau of Planning serves as staff to the BZA. Approximately one week after each closing date, a planner is assigned to review your application. All inquires regarding your application should be directed to this office at (404) 330-6145. The rules of the BZA prevent BZA members from discussing the merits of any case except during the public hearing for that case.

Schedule. There are two closing dates and two public hearings per month. The schedule allows time for neighborhood and NPU meetings to occur throughout the City prior to each public hearing. The schedule of closing and public hearing dates is attached (Page 9).

Neighborhood and NPU Recommendations. The City is divided into 24 Neighborhood Planning Units (NPU's), each of which has a volunteer citizen advisory committee that makes a recommendation to the BZA on variances. When you file your application, you will be notified of the NPU contact person and that you must schedule a meeting with that NPU in order to explain what you wish to do. You may be requested to attend additional neighborhood meetings; inquire about the time and place of those meetings. The applicant is expected to contact the NPU as soon as possible after the application is filed. The Bureau of Planning will send a copy of your application to the appropriate NPU during the week after the closing date for your application.

Public Notice. When you file your application, it will be scheduled for a public hearing. The Bureau of Planning will initiate posting of public notice ("an advertisement", "a legal ad") for this public hearing so that the public is informed at least 15 days before the date of the public hearing:

- by sending written notice of your application to all property owners whose property is within 300 feet of the subject property, and
- by causing public notice to be placed in the newspaper.

You are responsible for obtaining a public notice sign when you file your application with the Bureau of Planning, and for posting it in a visible location on your property, at least 15 days prior to your public hearing. Failure to properly post the sign will make it necessary for the BZA to defer your case to another public hearing. The BZA may defer the case to a hearing that has been scheduled 30 or more days after the original hearing.

Refunds on Withdrawn Cases. Requests for withdrawal received 18 days prior to the public hearing will enable a refund of the application fee.

Staff Recommendation. Bureau of Planning staff reviews and makes written recommendations to the BZA on each variance application. You may contact your assigned planner at (404) 330-6145 on the day of the public hearing if you wish to know staff's recommendation.

RE: Cook Residence Variance Application

Criteria for Variance

The lot is fifty feet wide. In order to build a parallel garage twenty-two feet deep and have adequate driveway clearance to maneuver exiting a distance of twenty-four feet with an additional maneuvering space of five feet at the turning radius is required. There is an existing retaining wall on the driveway side since the property adjacent to the driveway is three feet higher.

The current house is setback 3'-2" at the front corner and 3'-4" at the rear corner. We are asking to align with the rear corner of the house. This would create a 3'-6" setback at the rear corner of the proposed garage. We are not removing any trees from the property. We are asking only to build shelter for the vehicles and keep our yard safe and clean for our preschool son.

We need the fully required space for a standard turning radius. Most properties in the neighborhood are similarly close to the side yard setbacks. The driveways are all narrow and run between the house and property lines. This would not create a hardship for the community, nor is it a detriment. The value of adjacent properties and the quality of their environment should improve. The one story addition has a flat roof to avoid casting shadows or blocking air movement.

The garage addition would not negatively impact light or air movement. In addition, the garage is separated by a minimum of 20'-0" from any occupied structures. The existing property has adequate drainage pathways. The addition will add value to the adjacent properties as well as its own. There is a detached garage on adjacent property that will not be negatively affected.

Thomas and Karina Cook
