Variance Procedures

V-10-147
 RECEIVED
 SEP 10 2014
 Bureau of Planning

Variance applications are heard and decided at a regularly-scheduled public hearing by the five-member City of Atlanta Board of Zoning Adjustment ("BZA"). The Bureau of Planning serves as staff to the BZA. Approximately one week after each closing date, a planner is assigned to review your application. All inquiries regarding your application should be directed to this office at (404) 330-6145. The rules of the BZA prevent BZA members from discussing the merits of any case except during the public hearing for that case.

Schedule. There are two closing dates and two public hearings per month. The schedule allows time for neighborhood and NPU meetings to occur throughout the City prior to each public hearing. The schedule of closing and public hearing dates is attached (Page 9).

Neighborhood and NPU Recommendations. The City is divided into 24 Neighborhood Planning Units (NPUs), each of which has a volunteer citizen advisory committee that makes a recommendation to the BZA on variances. When you file your application, you will be notified of the NPU contact person and that you must schedule a meeting with that NPU in order to explain what you wish to do. You may be requested to attend additional neighborhood meetings; inquire about the time and place of those meetings. The applicant is expected to contact the NPU as soon as possible after the application is filed. The Bureau of Planning will send a copy of your application to the appropriate NPU during the week after the closing date for your application.

Public Notice. When you file your application, it will be scheduled for a public hearing. The Bureau of Planning will initiate posting of public notice ("an advertisement", "a legal ad") for this public hearing so that the public is informed at least 15 days before the date of the public hearing:

- by sending written notice of your application to all property owners whose property is within 300 feet of the subject property, and
- by causing public notice to be placed in the newspaper.

You are responsible for obtaining a public notice sign when you file your application with the Bureau of Planning, and for posting it in a visible location on your property, at least 15 days prior to your public hearing. Failure to properly post the sign will make it necessary for the BZA to defer your case to another public hearing. The BZA may defer the case to a hearing that has been scheduled 30 or more days after the original hearing.

Refunds on Withdrawn Cases. Requests for withdrawal received 18 days prior to the public hearing will enable a refund of the application fee.

Staff Recommendation. Bureau of Planning staff reviews and makes written recommendations to the BZA on each variance application. You may contact your assigned planner at (404) 330-6145 on the day of the public hearing if you wish to know staff's recommendation.

To Whom it May Concern,

Please accept this as written justification for a request for variance pursuant to Section 16-26-003 of the City of Atlanta Zoning Ordinance.

Variance Justification Statement:

We are seeking a variance at the property address shown above, to reduce the east side yard setback from the required 7 feet in R-4 zoning, to 3 feet 4 inches for a secondary addition to an existing single family residence. There will be no expansion outside the existing footprint, and no disturbed ground outside the existing footprint. *AT TIME OF REVIEW, IT WAS NOTED THAT FRONT SETBACK ALSO NEEDS TO BE REVIEWED FROM*

Reason for Request: 35' TO 29'-1"

The current house was originally constructed over the side yard setback line creating a peculiar condition. Due to the tight site conditions created by the width of the property and the topography of the rear yard that contains a creek, to gain additional space we can only expand into our existing attic space. These are exceptional and extraordinary conditions pertaining to this particular piece of property.

This project will involve removing the current roof and partially finished attic, and building a new second story. This new second story footprint will sit directly above the existing first floor footprint. No additional encroachment will be made to the east side yard setback past the existing house foundation walls. The first floor will be renovated by improving the flow, but no additional bedrooms or bathrooms will be built. The existing basement will be prepared for future finish, by improving water infiltration management, installing some plumbing drain lines for a future bathroom, and pouring a concrete slab on the floor. The areas of each floor are shown below:

- New Second Floor: 1,668 square feet
- Renovated First Floor: 1,510 square feet
- Slab area of Basement for future finish: 1,179 square feet

**NOTE: BASEMENT LEVEL CANCELS OUT. WALLS ARE*

The new facade architecture is in keeping with the vernacular of the existing house and neighborhood. If *NOT* granted, the variance would not cause substantial detriment to the neighborhood or impair the purpose *EXCEEDING* and intent of the Zoning Ordinance of the City of Atlanta.

4' AROUND 50% OF BUILDING STRUG

Thank you for your consideration in this matter.

Sincerely,

Bruce Cox
