Summary of proposed changes to buildings or site (example: "Construct a 10-foot by 10-foot, one-story room addition on the first floor of the house.") Include square footages and stories:

Construct a 997 sq second floor addition over a portion of the existing footprint. Addition includes 3 bedroom 2 bath. No increase in building footprint.

Proposed Lot Coverage (After Construction): Calculate total square footage of all lot coverage on the entire property after construction would be finished, including existing and proposed buildings and other structures, sidewalks, driveways, parking pads, patios, gravel, etc; everything except natural planted or undisturbed areas.

5,271 covered square feet / 8,053 total lot square feet = 65% proposed lot coverage
50% maximum allowed lot coverage (existing + proposed)

Variance Procedures

Variance applications are heard and decided at a regularly-scheduled public hearing by the five-member City of Atlanta Board of Zoning Adjustment ("BZA"). The Bureau of Planning serves as staff to the BZA. Approximately one week after each closing date, a planner is assigned to review your application. All inquiries regarding your application should be directed to this office at (404) 330-6145. The rules of the BZA prevent BZA members from discussing the merits of any case except during the public hearing for that case.

Schedule. There are two closing dates and two public hearings per month. The schedule allows time for neighborhood and NPU meetings to occur throughout the City prior to each public hearing. The schedule of closing and public hearing dates is attached (Page 9).

Neighborhood and NPU Recommendations. The City is divided into 24 Neighborhood Planning Units (NPU's), each of which has a volunteer citizen advisory committee that makes a recommendation to the BZA on variances. When you file your application, you will be notified of the NPU contact person and that you must schedule a meeting with that NPU in order to explain what you wish to do. You may be requested to attend additional neighborhood meetings; inquire about the time and place of those meetings. The applicant is expected to contact the NPU as soon as possible after the application is filed. The Bureau of Planning will send a copy of your application to the appropriate NPU during the week after the closing date for your application.

Public Notice. When you file your application, it will be scheduled for a public hearing. The Bureau of Planning will initiate posting of public notice ("an advertisement", "a legal ad") for this public hearing so that the public is informed at least 15 days before the date of the public hearing:

- by sending written notice of your application to all property owners whose property is within 300 feet of the subject property, and
- by causing public notice to be placed in the newspaper.

You are responsible for obtaining a public notice sign when you file your application with the Bureau of Planning, and for posting it in a visible location on your property, at least 15 days prior to your public hearing. Failure to properly post the sign will make it necessary for the BZA to defer your case to another public hearing. The BZA may defer the case to a hearing that has been scheduled 30 or more days after the original hearing.

Refunds on Withdrawn Cases. Requests for withdrawal received 18 days prior to the public hearing will enable a refund of the application fee.

Staff Recommendation. Bureau of Planning staff reviews and makes written recommendations to the BZA on each variance application. You may contact your assigned planner at (404) 330-6145 on the day of the public hearing if you wish to know staff's recommendation.

Justification for Variance Application

V-10169

Property Address: 626 Cresthill Ave. Atlanta, GA 30309

Request for side yard set back to be reduced from 7' to 5.6'

(1) there are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape or topography;

The width of this property is narrower than the minimum that is required by the zoning regulations for its zoning classification. This property's width is 47.72' and the minimal allowable width for an R-4 lot is 70'. The house's existing footprint encroaches into the side yard set back by 19.2". We cannot increase the current home's lot coverage footprint without increasing the impervious area. We would like to place a minimal second floor addition to the rear of the home over the existing footprint to functionally accommodate the stair plan location, minimize construction cost and maintain the home's one story bungalow appearance from the street.

(2) the application of the zoning ordinance of the City of Atlanta to this Particular piece of property would create an unnecessary hardship;

We believe the zoning regulations create an unnecessary hardship on us regarding the use of our property. With our lot's minimal width combined with our existing driveway's minimal width, we can reasonably create a low-profile addition to our home.

(3) such conditions are peculiar to the particular piece of property involved; and

Our lot has a nonconforming width. Our existing driveway on the opposite side of the property is 9' wide and occurs on the zero lot line. Our neighbor's driveway adjacent to our variance request side lot line encroaches onto our property by 1.8'.

These combined factors limit our 2nd floor rear addition's buildable location.

(4) relief, if granted, would not cause substantial detriment to the public good or impair the purpose and intent of the zoning ordinance of the City of Atlanta.

The requested variance of granting us a 5.6' side yard set back would not detract from people's use and enjoyment of adjoining and surrounding properties. This length of the encroachment required is only 20' and varies from a 6" encroachment to a 19.2" encroachment. The remainder of our home's footprint does not fall within the side yard set back. Our adjacent neighbor's home has an existing entire second floor addition and is separated from our home by a wide driveway that in fact encroaches onto our property. We will not be affecting their home's light or air flow. We would like to preserve the character and proportions of our one storey bungalow, therefore we are adding only a partial addition to the rear of the home, behind the existing roof's ridge line.
