Summary of proposed changes to buildings or site (example: "Construct a 10-foot by 10-foot, one-story room addition on the first floor of the house.") Include square footages and stories: Replace and expand wood deck on back of house. Proposed new wood deck to be "L" shaped. Approximate dimensions of proposed new deck are 24' x 22'. Square footage to be 414 sq. feet.

Proposed Lot Coverage (After Construction): Calculate total square footage of all lot coverage on the entire property after construction would be finished, including existing and proposed buildings and other structures, sidewalks, driveways, parking pads, patios, gravel, etc; everything except natural planted or undisturbed areas.

4,267 covered square feet / 9,104 total lot square feet = 46.9% proposed lot coverage.

50 % maximum allowed lot coverage

Variance Procedures

Variance applications are heard and decided at a regularly-scheduled public hearing by the five-member City of Atlanta Board of Zoning Adjustment ("BZA"). The Bureau of Planning serves as staff to the BZA. Approximately one week after each closing date, a planner is assigned to review your application. All inquiries regarding your application should be directed to this office at (404) 330-6145. The rules of the BZA prevent BZA members from discussing the merits of any case except during the public hearing for that case.

Schedule. There are two closing dates and two public hearings per month. The schedule allows time for neighborhood and NPU meetings to occur throughout the City prior to each public hearing. The schedule of closing and public hearing dates is attached (Page 9).

Neighborhood and NPU Recommendations. The City is divided into 24 Neighborhood Planning Units (NPU's), each of which has a volunteer citizen advisory committee that makes a recommendation to the BZA on variances. When you file your application, you will be notified of the NPU contact person and that you must schedule a meeting with that NPU in order to explain what you wish to do. You may be requested to attend additional neighborhood meetings; inquire about the time and place of those meetings. The applicant is expected to contact the NPU as soon as possible after the application is filed. The Bureau of Planning will send a copy of your application to the appropriate NPU during the week after the closing date for your application.

Public Notice. When you file your application, it will be scheduled for a public hearing. The Bureau of Planning will initiate posting of public notice ("an advertisement", "a legal ad") for this public hearing so that the public is informed at least 15 days before the date of the public hearing:

- by sending written notice of your application to all property owners whose property is within 300 feet of the subject property, and
- by causing public notice to be placed in the newspaper.

You are responsible for obtaining a public notice sign when you file your application with the Bureau of Planning, and for posting it in a visible location on your property, at least 15 days prior to your public hearing. Failure to properly post the sign will make it necessary for the BZA to defer your case to another public hearing. The BZA may defer the case to a hearing that has been scheduled 30 or more days after the original hearing.

Refunds on Withdrawn Cases. Requests for withdrawal received 18 days prior to the public hearing will enable a refund of the application fee.

Staff Recommendation. Bureau of Planning staff reviews and makes written recommendations to the BZA on each variance application. You may contact your assigned planner at (404) 330-6145 on the day of the public hearing if you wish to know staff's recommendation.

Planning

To whom it may concern:

This letter is to request a variance to reduce the east side yard setback from 7 feet to 1.5 feet in order to replace and expand the wood deck on the back of my home located at 1210 Zimmer Dr, Atlanta, GA 30306. The old deck was setback 1.5 feet from the east side property line where it attached to my house and extended down the line fourteen (14) feet gradually getting further from the property line. It was 2.5 feet from the property line at the end corner of the wood deck (see accompanying survey). My request is to replace this portion of the wood deck and extend it another eight (8) feet along this same line and extend the width along the back of the house by seven (7) feet from its current seventeen (17) feet (see accompanying survey and deck specifications). The end corner of the new wood deck will be 3.0 feet from the east side property line.

I believe a variance should be granted for the following reasons:

1. The functional layout of the existing floor plan of my house requires a deck on the north east corner of my house. There is a door that is 6.5 feet off the ground that exits onto the proposed new wood deck.
2. The seven foot setback zoning requirement would create an unnecessary hardship in that it would prevent me from utilizing my back door.
3. The conditions above are unique to my property as the northeast corner of my house, where the old deck was attached and the new deck would be attached is 1.5 feet from the east side property line.
4. Relief, if granted would not cause substantial detriment to the public good or impair the purpose and intent of the zoning ordinance of the City of Atlanta for the following reasons:
 - A. I would be replacing an old wood deck with a new wood deck that would provide a secure and safe exit from my property in the event of fire or other dangers.

- B. The new wood deck would not detract from any of my neighbors ability to use or enjoy their property. My neighbors on both the east and west side of my property have signed letters stating their support of my plans to replace and expand my existing wood deck.
- C. The replacement and extension of the old deck would not impede any current water drainage or ground water absorption as I am not planning on extending the concrete slab that is currently below the old deck. Additionally, no trees will be affected by the proposed new wood deck project.
- D. The new deck would promote desirable living conditions as it would allow my family and neighboring guests to enjoy gatherings on the new deck.
- E. Replacing and expanding an old wood deck with a new wood deck would help prevent against blight and depreciation in the neighborhood.

In summary, replacing and expanding my old wood deck with a new wood deck in the same area of my property would allow me to utilize and enjoy my property as it was functionally designed without causing any substantial detriment to the public good and would not detract from any of my neighbors ability to use or enjoy their property.

Thanks for your consideration on this matter.

Sincerely,

Scott Wilson

To whom it may concern:

We live next door to Scott & Gail Wilson (1210 Zimmer Drive NE) adjacent to where the replacement deck will be constructed.

We fully support the Wilson's extending their deck by 8 feet down the side of our property. The deck plans provide for a more attractive view from our home.

Please approve the variance allowing the Wilson's to extend their deck.

Very truly yours,

 3/28/10
