Summary of proposed changes to buildings or site (example: "Construct a 10-foot by 10-foot, one-story room addition on the first floor of the house.") **Include square footages and stories:** ADDITION OF MASTER-SUITE 1 STORY
46' x 21'

Proposed Lot Coverage (After Construction): Calculate total square footage of all lot coverage on the entire property after construction would be finished, including existing and proposed buildings and other structures, sidewalks, driveways, parking pads, patios, gravel, etc; everything except natural planted or undisturbed areas.

2358 covered square feet / 23587 total lot square feet = .9 % proposed lot coverage
_____ % maximum allowed lot coverage

Variance Procedures

Variance applications are heard and decided at a regularly-scheduled public hearing by the five-member City of Atlanta Board of Zoning Adjustment ("BZA"). The Bureau of Planning serves as staff to the BZA. Approximately one week after each closing date, a planner is assigned to review your application. All inquiries regarding your application should be directed to this office at (404) 330-6145. The rules of the BZA prevent BZA members from discussing the merits of any case except during the public hearing for that case.

Schedule. There are two closing dates and two public hearings per month. The schedule allows time for neighborhood and NPU meetings to occur throughout the City prior to each public hearing. The schedule of closing and public hearing dates is attached (Page 9).

Neighborhood and NPU Recommendations. The City is divided into 24 Neighborhood Planning Units (NPU), each of which has a volunteer citizen advisory committee that makes a recommendation to the BZA on variances. When you file your application, you will be notified of the NPU contact person and that you must schedule a meeting with that NPU in order to explain what you wish to do. You may be requested to attend additional neighborhood meetings; inquire about the time and place of those meetings. The applicant is expected to contact the NPU as soon as possible after the application is filed. The Bureau of Planning will send a copy of your application to the appropriate NPU during the week after the closing date for your application.

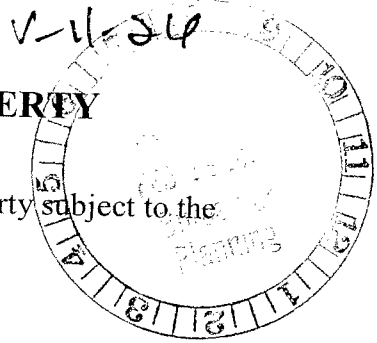

Public Notice. When you file your application, it will be scheduled for a public hearing. The Bureau of Planning will initiate posting of public notice ("an advertisement", "a legal ad") for this public hearing so that the public is informed at least 15 days before the date of the public hearing:

- by sending written notice of your application to all property owners whose property is within 300 feet of the subject property, and
- by causing public notice to be placed in the newspaper.

You are responsible for obtaining a public notice sign when you file your application with the Bureau of Planning, and for posting it in a visible location on your property, at least 15 days prior to your public hearing. Failure to properly post the sign will make it necessary for the BZA to defer your case to another public hearing. The BZA may defer the case to a hearing that has been scheduled 30 or more days after the original hearing.

Refunds on Withdrawn Cases. Requests for withdrawal received 18 days prior to the public hearing will enable a refund of the application fee.

Staff Recommendation. Bureau of Planning staff reviews and makes written recommendations to the BZA on each variance application. You may contact your assigned planner at (404) 330-6145 on the day of the public hearing if you wish to know staff's recommendation.

NOTARIZED AUTHORIZATION BY PROPERTY OWNER

Re: Variance Application for Side-yard setback: 1916 Wellbourne Drive, Atlanta

We have designed an addition that will allow the owner to build his Master-suite in such a way that it does not encroach upon the 75' stream buffer. In order to achieve this, however, it was necessary to create a small passage way that connects to an existing bump-out on the side of the existing structure. This bump out already encroaches into the side-yard setback by 2.4'. We are proposing that a small segment of the hallway to the main part of the addition align with the wall of the existing bump-out and run inside the side-yard setback for 7'6" before it jogs back to conform to the 10' setback.

We have included a drawing showing the details of the design in order to illustrate the following points:

1. The part of the addition that will encroach on the setback does not encroach any further than the existing bump-out on the side of the house.
2. The part of the addition that will encroach into the setback measures 2'6" x 7'6".
3. The main body of the addition aligns with the 10' side yard setback
4. The whole addition had to be placed where it is shown because any other location would make it encroach upon the 75' stream buffer.

Not shown on this drawing, but shown on the survey is the existing privacy fence that makes the encroaching part of the addition invisible to the neighbor. The addition is a 1 story addition with 8' tall walls on the side of the side-yard, and it will be barely visible from the neighbor's yard.

Please feel free to call me at any time if you have any questions concerning this application.

Sincerely,
Chris Hellmann

THE FIELD DATA UPON WHICH THIS PLAT IS BASED HAS A CLOSURE OF 1 FOOT IN 30,000+ FEET. AN ANGULAR ERROR OF 05 SECONDS PER ANGLE POINT AND WAS ADJUSTED USING THE LEAST SQUARES METHOD. THIS PLAT HAS BEEN CALCULATED FOR CLOSURE AND FOUND TO BE ACCURATE TO 1 FOOT IN 100,000+ FEET. AN ELECTRONIC TOTAL STATION AND A 100' CHAIN WERE USED TO GATHER THE INFORMATION USED IN THE PREPARATION OF THIS PLAT. NO STATE PLANE COORDINATE MONUMENT FOUND WITHIN 500' OF THIS PROPERTY.

IN MY OPINION, THIS PLAT IS A CORRECT REPRESENTATION OF THE LAND PLATTED AND HAS BEEN PREPARED IN CONFORMITY WITH THE MINIMUM STANDARDS AND REQUIREMENTS OF LAW.
