Summary of proposed changes to buildings or site (example: "Construct a 10-foot by 10-foot, one-story room addition on the first floor of the house.") Include square footages and stories: Build an guest house accessory structure in the back yard that exceeds the 30% allowable to main by 15%

Proposed Lot Coverage (After Construction): Calculate total square footage of all lot coverage on the entire property after construction would be finished, including existing and proposed buildings and other structures, sidewalks, driveways, parking pads, patios, gravel, etc; everything except natural planted or undisturbed areas.

5797 covered square feet / 12024.5 total lot square feet 48 % proposed lot coverage
50 % maximum allowed lot coverage

Variance Procedures

Variance applications are heard and decided at a regularly-scheduled public hearing by the five-member City of Atlanta Board of Zoning Adjustment ("BZA"). The Bureau of Planning serves as staff to the BZA. Approximately one week after each closing date, a planner is assigned to review your application. All inquiries regarding your application should be directed to this office at (404) 330-6145. The rules of the BZA prevent BZA members from discussing the merits of any case except during the public hearing for that case.

Schedule. There are two closing dates and two public hearings per month. The schedule allows time for neighborhood and NPU meetings to occur throughout the City prior to each public hearing. The schedule of closing and public hearing dates is attached (Page 9).

Neighborhood and NPU Recommendations. The City is divided into 24 Neighborhood Planning Units (NPUs), each of which has a volunteer citizen advisory committee that makes a recommendation to the BZA on variances. When you file your application, you will be notified of the NPU contact person and that you must schedule a meeting with that NPU in order to explain what you wish to do. You may be requested to attend additional neighborhood meetings; inquire about the time and place of those meetings. The applicant is expected to contact the NPU as soon as possible after the application is filed. The Bureau of Planning will send a copy of your application to the appropriate NPU during the week after the closing date for your application.

Public Notice. When you file your application, it will be scheduled for a public hearing. The Bureau of Planning will initiate posting of public notice ("an advertisement", "a legal ad") for this public hearing so that the public is informed at least 15 days before the date of the public hearing:

- by sending written notice of your application to all property owners whose property is within 300 feet of the subject property, and
- by causing public notice to be placed in the newspaper.

You are responsible for obtaining a public notice sign when you file your application with the Bureau of Planning, and for posting it in a visible location on your property, at least 15 days prior to your public hearing. Failure to properly post the sign will make it necessary for the BZA to defer your case to another public hearing. The BZA may defer the case to a hearing that has been scheduled 30 or more days after the original hearing.

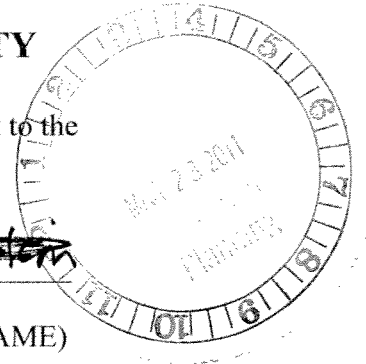

Refunds on Withdrawn Cases. Requests for withdrawal received 18 days prior to the public hearing will enable a refund of the application fee.

Staff Recommendation. Bureau of Planning staff reviews and makes written recommendations to the BZA on each variance application. You may contact your assigned planner at (404) 330-6145 on the day of the public hearing if you wish to know staff's recommendation.

V-11-044

March 22, 2011

**434 Rock Springs Road
ATLANTA, GA 30324**

To Whom It May Concern,

We are applying for a variance at 434 Rock Springs Road, Atlanta, Georgia 30324, to allow for a proposed new guest house accessory building (without a kitchen and without 220V electrical service) that will exceed the allowable 30% ratio of the main structure. Our proposed accessory structure is 45% of the main house structure.

The house is currently a one story single family residence zoned R-4 on a .276 acre lot.

There are extraordinary and exceptional conditions pertaining to this piece of property due to its size, shape or topography.

The property is 12,024.5sf and is 60.22' wide which is less than the 70' R-4 minimum lot frontage.

The application of the city ordinance to this particular piece of property would create an unnecessary hardship.

The existing house is a small one story 1,836sf single family residence with an existing one story single car garage located in the side yard set back that is to be removed. The proposed 750sf guest house is 15% over the allowable main house to guest house structure ratio. The home owner does not want to redesign or add on to the main house to gain this additional square footage.

Such conditions are peculiar to this piece of property.

The small size of the existing residence does not compare to other larger residences in the neighborhood that would allow this size accessory structure.

Relief, if granted, would not cause substantial detriment to the good or impair the purpose of the Atlanta zoning ordinance.

Approval of this variance would allow construction of a non offensive discretely designed guest house accessory structure. The neighbors understand this and we have received favorable reaction from neighbors on the street. We intend to bring their letters of support to the local association NPU and BZA meetings. We believe this zoning change would not impair the purposes and intent of the zoning ordinances and have no adverse effect on the community. We ask for your approval.
