MY COMM EXPIRES NOV. 4, 2012

V-11 52

Summary of proposed changes to buildings or site (example: "Construct a 10-foot by 10-foot, one-story room addition on the first floor of the house.") **Include square footages and stories:**

REPLACE EXISTING WOOD DECK 536 SQ.FT. WITH ENLARGED WOOD DECK 940 SQ.FT., AND COVER EXISTING PARKING SPACE 555 SQ.FT.; REPLACE EXIST. CONCRETE STAIR WITH NEW STAIR. APPLICANT SEEKS A VARIANCE FROM THE ZONING ORDINANCE

TO REDUCE THE SIDEYARD FROM 7.5 FT. TO 0 FT.; HALF DEPTH SETBACK FROM 20' 0" TO 0 FT. AND REAR YARD FROM 7.5 FT. TO 0 FT.

Proposed Lot Coverage (After Construction): Calculate total square footage of all lot coverage on the entire property after construction would be finished, including existing and proposed buildings and other structures, sidewalks, driveways, parking pads, patios, gravel, etc; everything except natural planted or undisturbed areas.

_____ covered square feet / 6969.6 total lot square feet = _____ % proposed lot coverage
_____ % maximum allowed lot coverage

Variance Procedures

Variance applications are heard and decided at a regularly-scheduled public hearing by the five-member City of Atlanta Board of Zoning Adjustment ("BZA"). The Bureau of Planning serves as staff to the BZA. Approximately one week after each closing date, a planner is assigned to review your application. All inquiries regarding your application should be directed to this office at (404) 330-6145. The rules of the BZA prevent BZA members from discussing the merits of any case except during the public hearing for that case.

Schedule. There are two closing dates and two public hearings per month. The schedule allows time for neighborhood and NPU meetings to occur throughout the City prior to each public hearing. The schedule of closing and public hearing dates is attached (Page 9).

Neighborhood and NPU Recommendations. The City is divided into 24 Neighborhood Planning Units (NPU), each of which has a volunteer citizen advisory committee that makes a recommendation to the BZA on variances. When you file your application, you will be notified of the NPU contact person and that you must schedule a meeting with that NPU in order to explain what you wish to do. You may be requested to attend additional neighborhood meetings; inquire about the time and place of those meetings. The applicant is expected to contact the NPU as soon as possible after the application is filed. The Bureau of Planning will send a copy of your application to the appropriate NPU during the week after the closing date for your application.

Public Notice. When you file your application, it will be scheduled for a public hearing. The Bureau of Planning will initiate posting of public notice ("an advertisement", "a legal ad") for this public hearing so that the public is informed at least 15 days before the date of the public hearing:

- by sending written notice of your application to all property owners whose property is within 300 feet of the subject property, and
- by causing public notice to be placed in the newspaper.

You are responsible for obtaining a public notice sign when you file your application with the Bureau of Planning, and for posting it in a visible location on your property, at least 15 days prior to your public hearing. Failure to properly post the sign will make it necessary for the BZA to defer your case to another public hearing. The BZA may defer the case to a hearing that has been scheduled 30 or more days after the original hearing.

Refunds on Withdrawn Cases. Requests for withdrawal received 18 days prior to the public hearing will enable a refund of the application fee.

Staff Recommendation. Bureau of Planning staff reviews and makes written recommendations to the BZA on each variance application. You may contact your assigned planner at (404) 330-6145 on the day of the public hearing if you wish to know staff's recommendation.

Variance Application
Statement of Justification

Property: Oki Residence
806 Ponce de Leon Pl.
Atlanta GA 30306

The Oki Residence deck is an allowable structure in RG-2 Zoning, however, the proposed design does not conform to the setback regulations. We are requesting to reduce the sideyard, half depth and rear yard setbacks to allow for an architectural structure that will increase the appeal from the existing conditions and solve current access issues to the property.

Existing conditions: On the North side of the property the existing access from Greenwood Avenue is a steep and dangerous stair with nine inch risers and nine inch treads (Fig. 2). Also on the North side there is an existing two car parking space structure carved from the site with nine foot retaining walls (Fig.3). On the south side of the property the access to the second floor (existing) deck is made with a thirty step stair without landings which constitutes another dangerous element to the house and its occupants (Fig.1).

Fig.1 - Overall conditions of existing wood deck, parking area and access to second floor deck.

Fig. 2 - Existing concrete steps from Greenwood Avenue.

Fig. 3 - Existing parking area on Greenwood Avenue.

Proposed conditions: On the North side we are proposing to improve the access to the property from Greenwood Avenue by introducing a new set of stairs rising at grade to the property and covering the existing parking area with a deck structure. This portion of the deck will encroach onto the half depth and rear yard setbacks. We are also proposing to improve the wooden deck adjacent to the house and provide safer access to the existing second floor deck, by reducing the sideyard setback on the south

side of the property. This will allow for a more comfortable and less intrusive set of stairs and platform to the second floor deck, improving the access to the property and the overall appeal of the house (Figs. 4 and 5).

Fig. 4 – Proposed condition with existing trees

**Fig. 5 - Proposed condition, without the trees (for visual purposes only
- the existing trees are to remain).**

The intents of the Zoning Ordinance of the City of Atlanta include providing adequate light and air and “encouraging...intensities of land development to facilitate...drainage...and other public requirements.” The proposed design will provide new plants and landscape elements, and in conjunction with the architectural modifications, contribute to an appropriate and visually appealing structure for the neighborhood. The proposed structure will not increase non-conformity of similar structures in the immediate neighborhood. The overall perviousness and open space ratio of the property shall remain approximately the same.
