**Summary of proposed changes to buildings or site** (example: "Construct a 10-foot by 10-foot, one-story room addition on the first floor of the house.") Include square footages and stories: remove dilapidated stairs + entrance. Construct brick + flagstone front porch 10.5' x 14.25' w/ flagstone + brick steps w/ cheek walls  
Porch = 123 sq ft + Stairs = 44 sq ft. ~~the~~ Porch will remain flush with house

**Proposed Lot Coverage (After Construction):** Calculate total square footage of all lot coverage on the entire property after construction would be finished, including existing and proposed buildings and other structures, sidewalks, driveways, parking pads, patios, gravel, etc; everything except natural planted or undisturbed areas.

3512.6 covered square feet / 8342.3 total lot square feet = 42.1% proposed lot coverage  
\_\_\_\_\_ % maximum allowed lot coverage

### **Variance Procedures**

Variance applications are heard and decided at a regularly-scheduled public hearing by the five-member City of Atlanta Board of Zoning Adjustment ("BZA"). The Office of Planning serves as staff to the BZA. Approximately one week after each closing date, a planner is assigned to review your application. All inquiries regarding your application should be directed to this office at (404) 330-6145. The rules of the BZA prevent BZA members from discussing the merits of any case except during the public hearing for that case.

**Schedule.** There are two closing dates and two public hearings per month. The schedule allows time for neighborhood and NPU meetings to occur throughout the City prior to each public hearing. The schedule of closing and public hearing dates is attached (Page 9).

**Neighborhood and NPU Recommendations.** The City is divided into 24 Neighborhood Planning Units (NPUs), each of which has a volunteer citizen advisory committee that makes a recommendation to the BZA on variances. When you file your application, you will be notified of the NPU contact person and that you must schedule a meeting with that NPU in order to explain what you wish to do. You may be requested to attend additional neighborhood meetings; inquire about the time and place of those meetings. The applicant is expected to contact the NPU as soon as possible after the application is filed. The Office of Planning will send a copy of your application to the appropriate NPU during the week after the closing date for your application.

**Public Notice.** When you file your application, it will be scheduled for a public hearing. The Office of Planning will initiate posting of public notice ("an advertisement", "a legal ad") for this public hearing so that the public is informed at least 15 days before the date of the public hearing:

- by sending written notice of your application to all property owners whose property is within 300 feet of the subject property, and
- by causing public notice to be placed in the newspaper.

*You are responsible for obtaining a public notice sign when you file your application with the Office of Planning, and for posting it in a visible location on your property, at least 15 days prior to your public hearing. Failure to properly post the sign will make it necessary for the BZA to defer your case to another public hearing. The BZA may defer the case to a hearing that has been scheduled 30 or more days after the original hearing.*

**Refunds on Withdrawn Cases.** Requests for withdrawal received 18 days prior to the public hearing will enable a refund of the application fee.

**Staff Recommendation.** Office of Planning staff reviews and makes written recommendations to the BZA on each variance application. You may contact your assigned planner at (404) 330-6145 on the day of the public hearing if you wish to know staff's recommendation.

To whom it may concern:

This is an application for a variance for the construction of a front porch at 920 Highland Terrace NE Atlanta GA 30306. The proposed front porch will encroach on the set back however, it is our opinion that the location of the house on the property would provide for an exception. The proposed porch will be flush with the existing structure and will be in line with the adjacent residences.

Currently the sun room protrudes from the house 10.5 feet. The porch will be in the space from the sun room to the existing corner of the house, approximately 14 feet in length, where there are currently steps to the front door. Replacing the existing stairs with the proposed porch will allow for a new sidewalk that will be farther away from the critical root zone of the existing tree. The proposed stairs to the front porch are located as far from the existing tree as possible to limit any disturbance to the critical root zone.

The current dilapidated concrete stairs and walkway are immediately adjacent to the existing tree. Removing the concrete and constructing a new walkway and stairs away from the tree will allow for a more attractive entrance to the home.

As the house is already located in the set back and the proposed work will not protrude farther than the current structure, except for the stairs, we are requesting a variance. The addition of a front porch will contribute to desirable living conditions for the home and the neighborhood as well as provide an attractive addition to the home and neighborhood.

Sincerely,

Maggie Copen
