My Commission Expires Oct. 29, 2011

Summary of proposed changes to buildings or site (example: "Construct a 10-foot by 10-foot, one-story room addition on the first floor of the house.") Include square footages and stories: BUILD A GARAGE 23.5 X 24 ON EXISTING PAD

Proposed Lot Coverage (After Construction): Calculate total square footage of all lot coverage on the entire property after construction would be finished, including existing and proposed buildings and other structures, sidewalks, driveways, parking pads, patios, gravel, etc; everything except natural planted or undisturbed areas.

4178 covered square feet / 7983 total lot square feet = 52 % proposed lot coverage
_____ % maximum allowed lot coverage

Variance Procedures

Variance applications are heard and decided at a regularly-scheduled public hearing by the five-member City of Atlanta Board of Zoning Adjustment ("BZA"). The Office of Planning serves as staff to the BZA. Approximately one week after each closing date, a planner is assigned to review your application. All inquiries regarding your application should be directed to this office at (404) 330-6145. The rules of the BZA prevent BZA members from discussing the merits of any case except during the public hearing for that case.

Schedule. There are two closing dates and two public hearings per month. The schedule allows time for neighborhood and NPU meetings to occur throughout the City prior to each public hearing. The schedule of closing and public hearing dates is attached (Page 9).

Neighborhood and NPU Recommendations. The City is divided into 24 Neighborhood Planning Units (NPUs), each of which has a volunteer citizen advisory committee that makes a recommendation to the BZA on variances. When you file your application, you will be notified of the NPU contact person and that you must schedule a meeting with that NPU in order to explain what you wish to do. You may be requested to attend additional neighborhood meetings; inquire about the time and place of those meetings. The applicant is expected to contact the NPU as soon as possible after the application is filed. The Office of Planning will send a copy of your application to the appropriate NPU during the week after the closing date for your application.

Public Notice. When you file your application, it will be scheduled for a public hearing. The Office of Planning will initiate posting of public notice ("an advertisement", "a legal ad") for this public hearing so that the public is informed at least 15 days before the date of the public hearing:
by sending written notice of your application to all property owners whose property is within 300 feet of the subject property, and
by causing public notice to be placed in the newspaper.

You are responsible for obtaining a public notice sign when you file your application with the Office of Planning, and for posting it in a visible location on your property, at least 15 days prior to your public hearing. Failure to properly post the sign will make it necessary for the BZA to defer your case to another public hearing. The BZA may defer the case to a hearing that has been scheduled 30 or more days after the original hearing.

Refunds on Withdrawn Cases. Requests for withdrawal received 18 days prior to the public hearing will enable a refund of the application fee.

Staff Recommendation. Office of Planning staff reviews and makes written recommendations to the BZA on each variance application. You may contact your assigned planner at (404) 330-6145 on the day of the public hearing if you wish to know staff's recommendation.

Variance Request for 747 Virginia Circle

We are seeking variance from the minimum side setbacks of a lot for City of Atlanta Zoning Regulation R-4, reduced from 7' to 2'-5" on the Left/East facing side, and from 15' to 3.5' on the Rear/South of the lot boundary per attached drawings.

This will allow us to place a one-story garage on an existing pad that was poured prior to the purchase of the home.

The Garage is 23'-5" wide x 24' deep; 564 Sq/Ft

The existing impervious surface is 52%; we are not adding to this with the addition of the garage structure.

Justification

Extraordinary and Exceptional Conditions –

1. The property is a non-conforming lot according to the R4 standard lot size. The R4 requirements are 70' wide and no less than 9,000 Sq/Ft. The lot is 55' wide and 148' deep
2. The property was purchased with the garage pad and impervious surface as it is on the survey .
3. We are not requesting to increase the pad in anyway. The garage we are proposing will be on the existing pad.
4. This is the only possible location for the garage; moving it any closer to the house would make it difficult to get in and moving into the yard would increase impervious surface.

No substantial detriment to the public good or impairment to the purpose and intent of the zoning ordinance –

- Not effecting existing lot coverage
- Not impacting any trees
- The 2'-5" on the side setback is to the corner of the column. The majority of the structure will have 3' from the property line to the exterior wall for maintenance.
